

Covid-19-Lockdown – Not much on the shelves – but MrFishDorchester drops by...

It's a great time for me to be shooting #food and #drink #photography in my studio – things here are pretty normal even though the virus on the go.

It's been a strange time for all – people asking me “what day is it?” it's funny watching people getting into the freelance/working from home thing. Odd how we are on lockdown. Stay Home Stay Safe – but here we are all go – supporting local food and drink businesses herein Dorset.

Let us know if you need some help reaching out to new client during this time – it's a time to connect with the local community and let people know you're here to help.

MrFishDorchester is no different – amazing local, line-caught produce. Local to Dorchester – fresh sea fish... A pleasure to work with Kevin on his foodie shoots.
