Work with us

Studio : We have a studio space in Dorchester where we can setup a shoot for you. Anything from building a set design to lifestyle shots.

Location : We can work with you on location, in your bar or restaurant – this can be anything from simple editorial style work to setting up a location studio. We bring along professional lighting solutions to enhance your products and capture them in the best light.

> **Retainer :** You can commission us on a retainer basis which gives you a set amount of support from us each month – these agreements are normally 12 months – They not only give you peace of mind, regular creative media from us, but also give you access to our props, lighting, studio all within the cost. Add us to your team. The fee gives you added time and work each month. It gives you great cash flow and keeps your media feeds fresh, up-to-date and alive with new content each month. Our retainers start from as little as a half day per month. *(most clients opt for a day, which is our best package)*

Usage : The work we create can be used on platforms such as…

Instagram I Facebook I Twitter I LinkedIn I YouTube I Google Business

Our work can be used on Websites, Blogs, and Newsletters too. We often get asked for our work to appear in Print formats – working with local, national and international outlets – supplying High Resolution files ready to print. We find this works very well for clients that send out Press Releases with our images attached, gaining a much better success rate for them.

Commissions : We have an hourly rate, a half day rate and full day rate. So our price includes editing and post-production. Content is usually supplied via a Dropbox link so you have access to download the images and footage. This is normally turned around in a 24hrs.
